Use Technology to Make Aid:

- ✓ Faster
- ✓ Cheaper
- ✓ More transparent
- ✓ Easier to deliver
- ✓ For everybody

SEMPO   OXFAM   CONSENSYS

Changing the nature of aid

Inclusive

of the unbanked

Accessible

easy to use technology

## Effective

fast, secure and transparent

How it works: We use a suite of blockchain based, stable crypto-currencies to enable efficient cross-border transactions.

Global Reserve

Synthetic Local Currency

This is pegged to the price of the local currency. People spend as they usually would, in their local markets.

We have the market

We have the network

We have the partners

We have the expertise

OXFAM

- 90 countries
- 19.5 million people
- 592 partners
- Global spend 2018-2019: 998m €
- EU grants in 2018: 118m€ (40% HA)

EU's Initial Humanitarian Aid for 2019

European Civil Protection and Humanitarian Aid

€385 million
Sub-Saharan Africa

€860 million
Syria Crisis
Syria, Lebanon, Jordan, Turkey, Egypt

€32 million
North Africa and European Neighbourhood

€88 million
Iraq, Yemen, Palestine*

€105 million
Asia, Latin America, Pacific and Caribbean

€174 million
Reserves & non geographic allocations

Total budget ➡ €1.6 billion

* This designation shall not be construed as recognition of a State of Palestine and is without prejudice to the individual positions of the Member States on this issue.

Scaling up

Leverage Oxfam's global network *and grassroots connections to scale this solution*

Develop a common, decentralized platform *for delivering cash to people*

Enable localisation *& change the delivery paradigm*

Support community centred design, tech solutions *embedded in established community-level approaches*
